

JANUARY 2008 MEETING

# A LOOK AT THE STATE OF FLUID POWER TODAY

Please join your fellow fluid power professionals at the **official relaunch** of the Cleveland/Great Lakes Chapter of the International Fluid Power Society. Come have dinner with old friends and make some new ones in the process! We'll hear some brief thoughts by popular speaker John C. Balliett of Fluid Systems Service Corp. John has been in the industry for more than 30 years, and has taught courses, designed circuits, and nearly everything in between. We'll also talk a bit about what you'd like to see from your new, reborn chapter.

Need more incentive? The first 5 people to sign up will receive a free copy of the *2008-09 Fluid Power Handbook & Directory*.

.....

**DATE:** Wednesday, January 30th, 2008  
**TIME:** 5:30 to 7:30 p.m.
